

## ASHA HARRISON

### Director / Health Services & Facility Planner

#### EXPERIENCE

Asha's clinical health experience as a Paramedic has enabled her to develop strong and effective skills in the field of Health Services and Facility Planning. She has been an integral member on multiple complex, staged new build and redevelopment projects ensuring a service delivery driven outcome.

With a keen interest in Model of Care development & service delivery reform, Asha analyses the current scope, reviews the demand, undertakes a GAP analysis, facilitates workshops and collaboratively develops new Models of Care with providers in accordance with contemporary health care trends. Asha then effectively translates the demand and service delivery model into facility requirements. She also provides strategic and technical advisory services to her clients as necessary.

Asha has developed multiple strategic, service delivery and planning documents, and has managed and facilitated user groups for planning and design across numerous health infrastructure capital works projects throughout Western Australia, ACT and Queensland.

Asha has extensive experience working in metropolitan locations along with remote regional locations across WA and has a thorough understanding of cultural sensitives and operational complexities of delivering health care in remote locations.
