

EXPERIENCE

Bryony's health services & facility planning career commenced in 2010. She has been involved in multiple projects, predominantly in Western Australia, that are in both the metropolitan area and regional/ remote locations. These projects range from small hospitals and health centers to regional health campuses to tertiary hospitals. She has been involved in single and multiple stage projects for new builds and redevelopments, in multiple forms of procurement and both client side and State Advisory roles.

Her combination of education and experience has proven beneficial when managing and coordinating the varied activities that occur across multiple projects and programs of works.

Bryony has experience in facilitating challenging user groups for planning and design and works to find a service delivery driven outcome while promoting contemporary health service practices.

QUALIFICATIONS

- Master of Science in Project Management, Curtin University of Technology
- Bachelor of Commerce, Accounting & Management, University of Notre Dame Australia
